THE FOLLOWING PERFORMANCE STANDARD(S) WERE IN VIOLATION OR HAVE A PERMIT DEFECT:	

COMMENTS :	PERMIT: 1302253	REPORT: HNM0011172
SIGNS AND MARKERS: Permit signs and markers are noted.		

REVEGETATION: The out slopes of fill areas are supporting vegetation. The areas around the prep plant have been covered with a topsoil mix and seeded. These areas are supporting vegetation.

AUTHORIZATION TO OPERATE: This permit has been transferred from PN 1302194. All mining and reclamation obligations are now assumed by the new permittee, Russell County Reclamation, LLC. The MSHA# is 44-02277. On site observations are consistent with permit information.

COMMENTS: A partial inspection was conducted. Mining and reclamation are still ongoing.
