Subject: Carbo, VA - Potential Landfill Opportunity - Meeting Follow-Up

John,

It was great talking with you yesterday – AJ and I look forward to working with you on this project!

Following up on our conversation – please see the trailing notes/links.

- Tariff NS 6306-A: <https://www.norfolksouthern.com/content/dam/nscorp/pdf/NS6306-A.pdf>
- Possible Source of Containers: <https://www.wastequip.com/products/intermodal-containers/environmental-intermodal-containers>
- Possible Source of Railcars: <https://www.progressiverailroading.com/railproducts/product/83-Foot-7-Inch-Container-Flat-Car--5025>

As a reminder – NS does not currently own any of the flatcars/containers used in the transport of MSW.

Next Steps

- On my end, I'll continue chasing down the track condition with our local MWS team. We'll want to quantify any costs associated with rehabbing the onsite track, nearby mainline, etc.

Thanks,

Joe R. Torp, PE
