Subject: Re: Russell County Letter

I received a call from the Russell County Board of Supervisor's attorney yesterday evening. I called some of you but was driving at the time and had a graduation to attend so I could not contact all of you at that time. The attorney, Terry Kilgore, asked that our BOS not send a letter in opposition to the Landfill being discussed in Russell County. He explained that any leaching would be contained and any danger from the landfill would be closely monitored by State and Federal officials. We also talked about how our BOS should not get involved in the affairs of other counties affairs. For your information, Wise County has refused to send a letter of opposition of the Landfill to Russell County. Please use this information in your decision to send our letter to the Russell County BOS. Thank you.

All: Attached is the updated letter with Mr. Skeen's additional two comments under the Environmental Impact section. Let me know if it looks good and I will send to Russell County.

Subject: Re: Russell County Letter

If a majority of our BOS members do not want a letter concerning the Russell County Landfill, we would need a motion at our next meeting. A majority can hold up sending a letter out until then. If a majority wants it to go, it goes. I vote to hold up sending the letter until a discussion at our next board meeting. If you will let me know your vote (to send now or hold until the next meeting), please let me know and I will contact Freda.
